FINALS		MAY 23RD RAIN DATE – MAY 25TH	

This schedule looks confusing and it most likely is. I have put together a schedule that will allow all teams to have a 6-game schedule. For the boys, it is as listed. For the girls and Coed, you have an interlocking schedule that has options.

It is very important that all the Girls teams play all the games against the other Girl's teams AND that the Coed teams play all the games against the other Coed teams. What is not so important is the inter-games between the girls and the coed teams. If these games do not get played, I can make the results work if the other games are played.

With all games, including the boys, it is a tight schedule. There is really no break between that will allow for make up games except Mondays and Wednesdays. This is a result of the shorter season and as usual, the Outdoor Ed for grade 6. If you are finding that the weather or the field or other commitments can not allow you to make the game up, that is fine. Please just let me know. If worse comes to worse, I will find a way to make it work.

NOW TO PUT A BUG INTO YOUR EAR – What would the feeling be if we played middle years' soccer in September and October? We could go alternate days of the Senior High Soccer. It would just mean getting teams organized sooner and being done in mid October. Just a thought.

Waywayseecappo and Rosburn Elementary will play all their home games at the Rosburn Collegiate field.

Where ever possible, I used last year's schedule to reverse the home games. Hopefully, if you traveled to a town last year, they are now traveling to your town.

Playoff Locations will be determined later but if you would like to host one of the groups, please contact me ASAP. As I hear from schools willing to host, I will send out information to the contacts.
